LG FULFILLMENT

Digital Signage & Video Wall Solutions

OLED

With cutting-edge OLED technology, LG has created a truly innovative technology with perfect picture quality and a revolutionary pencil-thin design, adding artistic value to display functionality.

Perfect Black:
Limitless contrast and the deepest blacks
Self-lighting pixels switch off completely to reproduce absolute blacks with no light bleed, offering infinite contrast.

Perfect Color:
Accurate & stable color reproduction
Self-lighting pixels bring colors to life with superb accuracy.

Perfect Viewing Screen:
Wide viewing angle
LG OLED Signage delivers awe-inspiring picture quality across the entire screen, even from wide viewing angles.

Perfect Design: Slim and light
With just two layers, the LG OLED Signage Display is unbelievably lightweight and thin.

ULTRA STRETCH

A new experience with a 58:9 widescreen that can display dynamic content based on the user's installation environment.

High Resolution with extraordinary format (3,840 x 600)
Ultra HD large screen delivers an immersive viewing experience.

58:9 Extended Wide Format
Dynamic content is delivered on one screen thanks to a new 58:9 bar-type widescreen format.

4 Divided PBP in Landscape or Portrait
The Picture-by-Picture (PBP) feature allows you to divide a screen into four parts in landscape or portrait installations.

STANDARD SIGNAGE (22"-65")

Quad Core SoC*
The High Performance SoC can execute several tasks at once and provides smooth content playback.

webOS
The webOS platform provides easy and convenient tools to create content. LG's SDK* and technical supports make content development and management easier.

Group Manager
Content can be created, distributed, and controlled by signage without a dedicated PC or server.

PBP (Picture-By-Picture)
PIP (Picture-In-Picture)
PBP (Picture-By-Picture) and PIP (Picture-In-Picture) features enable you to compose various layouts for several digital devices.

OVERLAY TOUCH & MULTI-TOUCH EXPERIENCE

LG's touch technology provides smooth, accurate 10-point multi-touch for your interactive needs.

10-Point Multi-Touch Experience
Offers a more realistic touch experience, recognizing up to 10 simultaneous touches without needing a separate pen.

Ghost Free Multi-Touch Experience
Touch the screen for 'No Ghosting' writing and drawing, enabling clean, seamless navigation.

ULTRA HD SCREENS

Large Screen Content Delivery
Providing immersive, high-quality widescreen viewing on a wide variety of screen sizes.

Ultra HD Resolution 3,840 x 2,160
Ultra HD resolution offers a whole new level of picture quality, boasting picture definition four times higher than full HD.

Multiple Screen with PBP or PIP
The PBP (Picture-By-Picture) and PIP (Picture-In-Picture) features offer four divided split screens in landscape and portrait formats.

VIDEO WALL

Narrow Bezels
Narrow bezels enable the entire video wall to more closely resemble a single screen.

Uniform Brightness
LG's LED backlight technology guarantees high brightness uniformity to ensure a clear picture. On some other screens, certain spots may appear darker than others, but the VH/VM series generates high visibility and a consistent brightness across the whole screen.

Image Gap Reduction
The VH/VM series includes an image improvement algorithm that can adjust to objects located within the bezel boundary for a seamless viewing experience.

LAN Daisy Chain Performance
A LAN daisy chain allows you to execute commands to control and monitor the screens and even update their firmware.

Control & White Balance
SuperSign™ enables remote control of multiple monitors via networks and RS232 serial. The Auto White Balance feature adjusts the video wall easily and intelligently for the optimum video wall solution.

SUPERSIGN™ TV

SuperSign™ TV includes a built-in TV tuner to broadcast TV programs and deliver advertisements simultaneously.
Fail over
Enables content to be displayed without dead spots when none of the external inputs are working. The monitor switches the signal automatically.

Wi-Fi Dongle Ready
SuperSign™ TV supports Wi-Fi USB dongle connection for convenient content distribution.

CMS: Signage Content Management Software
You can easily create, schedule, and distribute the content you want with various templates provided by SuperSign™ CMS.

Editor: Signage Content Editing Software
Create content and playlists, distribute through network or USB. Convert various codecs and containers for the LG Signage. Configure the desired

CMS (COMMAND CENTER HD)

To manage your digital signage, your organization needs software that can get you up and running quickly but also scale to meet your needs as you grow. Industry Weapon's CommandCenterHD is the easiest way to manage your network of digital signage. It doesn't matter if you have one tv or thousands spread across the globe, CommandCenterHD provides you with all the tools you need to upload, schedule and manage your digital signage deployment.

CONTENT CREATION & INSTALLATION

Graphics and content creation

LG Fulfillment offers a full range of graphic creation services for your digital signage needs. Don't have a graphic designer on staff? No worries. We have a talented team that can take your vision to a completed product.
